

Transportation

Goal Statement

Provide for the current and future transportation needs of Duncan through the implementation of transportation improvements and public transportation options that provide a safe, accessible, appropriate, and efficient transportation network for all common modes of motor-driven vehicles and to facilitate localized travel, minimizing the impacts on regional traffic, while facilitating access to local businesses and destinations.

Work Plan Priorities

General Transportation Priorities

- Adopt Complete Streets Program
- Establish and Revise Street Classification Hierarchy
- Utilize Grants to Fund Transportation Projects
- Maintenance of Traffic Light Sensors and Timing

Transportation and Economic Development Priorities

- Conduct Elk Avenue (Bypass to Hwy 81) Study
- Conduct Beech Avenue (Bypass to Hwy 81) Study
- Main Street Corridor Improvements
- 2nd Street Corridor Improvements

Transportation and Safety Priorities

- Implement Streetscape Designs and Traffic Calming Techniques
- Identify and Evaluate Dangerous Intersections

Public Transportation Priorities

- Expand Red River Transportation Opportunities
- Amend Local Ordinances to Encourage Ride Share Programs
- Encourage and Promote Local Taxi Services

The Transportation Goal Statement and Work Plan Priorities were prepared through citizen participation and input during open meetings, public forums, and through Duncan Heart & Soul ward meetings. Was a potential Work Plan Priority missed? Is there something that needs to be added for consideration?
