

Get My Meter Info

Access your water usage information and configure notification preferences easily and securely from the *Get My Meter Info* web portal and integrated smart phone apps.

Registering your account on the web portal

The portal system is accessed by logging into your *Get My Meter Info* portal account. Using your web browser, navigate to <https://getmymeter.info> and register your account. During the registration process, you will be required to enter some information found on your utility billing statement, including your account number and the name associated with your account.

The image contains two screenshots of the 'get mymeter.info' website. The left screenshot shows the login page with fields for 'Enter your user name' and 'Enter your password', a 'LOGIN' button, and links for 'Forgot password' and 'Create profile'. The 'Create profile' link is circled in red. The right screenshot shows the registration page with sections for 'Utility Information' (City of Duncan, Enter your utility account number), 'Profile Information' (Enter your desired user name, Enter your password, Confirm your password), 'User Information' (Enter your utility account first name, Enter your utility account last name, Enter your email address), and 'Legal Information' (checkbox for I Agree with Terms of Service). A large 'REGISTER ACCOUNT' button is at the bottom.

Accessing the Portal

After registering and responding to the confirmation email, log in to your account and view the following portal information:

Account Summary

The Account Summary widget shows you information about your account, location and meter along with a graph depicting your monthly water usage history.

Usage Data

The Usage Data section shows your water consumption; float your mouse over a bar in the chart to view details for that period. Click the “Hourly”, “Daily” and “Monthly” buttons to change the data view. Click the download buttons to retrieve the chart in popular computer graphics formats or the underlying data in Excel format.

Weather Data

The Weather Data section shows temperature range and precipitation data from weather stations in and around the City of Duncan service area. Click the download buttons to retrieve the chart in popular computer graphics formats or the underlying data in Excel format.

Notification History

The Notifications section shows you recent notifications including conservation tips, service notices and other communications from City of Duncan. These are the same messages that you have received via email, text or phone depending upon your notification configuration settings. Click the “gear” icon in the upper right corner to access your notification configuration preferences.

Notifications 

 **Conservation Tip - Smart Irrigation**
Mon, Aug 13, 2018 at 8:50 AM
Lawn irrigation can account for more than half of residential water use. New technologies such as Smart Irrigation Controllers can help you minimize your outdoor water use while maintaining healthy and vibrant landscaping.

OK Cancel

- Enter your email address and phone number for receiving notifications via SMS or automated phone calls.
- Enter the time window during which you want to receive phone messages and the window during which you want to receive messages via SMS or email. To receive messages 24 hours a day, set both to the same value.
- For each notification type, check the “Email”, “Call” and/or “Text” boxes to specify which type of message you want to receive for each alert.
- “Snooze Days” specifies how many days will pass between messages of the same type.
- Some alert types require additional parameter values.
- Float your mouse pointer over the “info” icon for a detailed description of each alert type.

Mobile App

You can also access your portal information using the app on your iPhone or Android phone. Visit the appropriate store and download the app:

Link the App to Your Account

Your mobile app must be linked to your portal account; this allows you to view your information using the mobile app without logging in. First access your account via the web portal and click the mobile device icon to initiate the pairing process:

Scan the QR Code from the web portal application using the mobile app

Now you can view your account information and meter data on your mobile device
